### The 2008 Common Induction Standards for Care

#### Introduction

We are pleased to introduce the New Common Induction Standards for Care Course.

The new standards are designed for people entering social care, and those changing roles or employers within adult social care. They are designed to be met within a 12-week period, and were developed to reflect recent changes to the NVQ requirements and the General Social Care Council Code of Practice. Inspectors will regard the new standards as the national minimum standard requirements for new staff starting after 30th September 2006.

This one day course provides an overview of all the standards and the underpinning knowledge required to assist with the provision of high quality and safe practice. It also prepares delegates for entry onto NVQ health and social care programmes.

#### Course Outline

##### 1. The principles of care

- The values
- Prejudice and equal opportunities
- Confidentiality
- Person centred approaches
